OVERVIEW

Building on the success of our first Asia Sustainability and ESG Summit in Bangkok last year, we are proud to announce the second ESG Summit in Bali (Dec 5-6 2024). While the global movement in promoting sustainability and ESG integration is facing some challenges, we strongly believe that the topic continues to generate significant interest among academic and professionals, especially in Asia.

This ESG Summit provides opportunities to share research findings and practical insights in the area of ESG integration and business sustainability in the Asian context. In order to provide publication opportunities for the presenters, two Special Issues (SIs) from the Research in International Business and Finance (RIBAF) and the Asian Journal of Accounting Research (AJAR) are affiliated with the Summit.

In addition to renowned academic researchers, well-known industry speakers are expected to deliver keynote speeches at the event. Besides, a special town hall meeting will be organized for industry participants from Indonesia, China (including Hong Kong), Malaysia, India, and Australia to foster business collaborations and investment opportunities in the ESG space.

IMPORTANT DATES

Oct 15, 2024	Submission deadline to conference presentation
Oct 20, 2024	Registration deadline for Summit

JOURNAL OF ASIAN PUBLIC POLICY (JAPP)

SPECIAL POLICY TRACK FOR PRESENTATION

Recently, applying ESG to enhance business sustainability has become an important objective for corporations. While ESG integration is often an issue driven by business' own initiatives, ESG disclosure can be more related to regulations and policy. As ESG integration and disclosure are popular research topics, it is time to explore their policy implications in the Asian context.

We welcome research related to the following topics applied to a specific industry sector, the financial sector or all non-financial sectors in Asia:

- Policy outcome evaluations relating green/environmental regulations to business sustainability
- Policy outcome evaluations relating ESG disclosure regulations to business sustainability
- ESG performance and related financial performance as a result of national policies
- Policy implications for establishing an ESG framework for listed firms
- Policy implications for establishing an ESG framework for non-listed firms
- Financial policies and their effects on enhancing ESG integration
- Outcomes of green financing policies
- Outcomes of policy and incentive scheme related to ESG/green capacity building, infrastructure, and nurturing talents
- Any research issues demonstrating a significant relationship between ESG regulations and business sustainability

Papers presented in this policy track that are recognized as the most outstanding papers can be submitted to Journal of Asian Public Policy (JAPP) with the fast-track reviews. The paper submission link to JAPP will be provided in due course.
